

Dynawave Cable Inc. proudly manufactures some of the world's best coaxial cable which meets or exceeds MIL-DTL-17 and interconnects for use in RF and Microwave applications. We design and manufacture a variety of products including bulk cable, connectors, and cable assemblies covering frequency ranges from DC up to 65.0 GHz. We have earned respect over the past 25 years by solving the most challenging interconnect problems where size, weight, power, loss, phase stability, flexure, or other design concerns are critical.

Since its founding in 1985 Dynawave Inc. has been a leader in the design and manufacture of high quality, RF and Microwave connectors, adapters, and cable assemblies. Continuing in this tradition, Dynawave Cable Inc. offers a full line of High Performance Low Loss Bulk Cable (**DynaFlex[®]**, **D-Flex[™]** and **RG**), connectors and cable assemblies.

Dynawave's modern 45,000 sq. ft. manufacturing facility is certified to ISO 9001:2008. Our Cable manufacturing includes the latest Technology in taping, braiding and extrusion lines with computer process controls at every critical point in the manufacturing cycle. Our knowledgeable Engineering and Manufacturing Staff, with more than 25 years of experience, is dedicated to excellence and continuous improvement. This allows Dynawave Cable Inc. to meet or exceed our customers most demanding performance and delivery requirements.

Please contact us with your application, and allow us to provide you with a precise solution.

WE OFFER RF AND MICROWAVE COAXIAL INTERCONNECT SOLUTIONS FOR DC TO 65.0 GHZ.

We sell both to OEM's and directly into the following markets:

INDUSTRIAL - MEDICAL - AEROSPACE - MILITARY -
SATELLITE - RF HIGH POWER - MARINE ELECTRONICS -
TEST & MEASUREMENT
